Former MP

26 jun 2014

The Prime Minister

Government of India

New Delhi

Sub:-26 Nov 2008 attack on Mumbai

Incomplete Investigation

I approach you as the only competent authority to institute a proper investigating body to complete the incomplete investigation of the Mumbai terror attacks.

*The Mumbai terror attacks on 26 Nov 2008, have wideranging manifestations to the National Security. Since the attack was engineered from Pakistan; the culpability of negligence rests on the central government. More so as the central intelligence agency like the Intelligence Bureau (IB) deliberately withheld information from Mumbai Police and the Indian Navy of the impending attack. The R&AW had informed the IB 4 days before the attack that the boat carrying terrorists has embarked from Karachi to attack Mumbai. The IB chose to sleep over the information .No one has been held responsible and no action initiated.*

*There is strong evidence that the CST attack was delinked from the other attacks. The Handler based in Pakistan never spoke to or spoke about the CST attack. It is claimed by many that this attack was conducted with the express intention of assassinating, Karkare ,Kamte and Salaskar.Retd IG Police shMushrif has written a*

*book 'who killed karkare' He has given sufficient prima facie evidence to suggest an international conspiracy behind the attack.*

*In this regard the Information commissioner Ratnakar Gaikwad has sought judicial enquiry on the entire matter. He gave his ruling on the application of smt Vinita Kamte. The widow of the brave martyr Mr Kamte. Ms Kamte has also written a book and demanded the wireless records. These are missing.*

*The role of Rana and David Headley has been documented. It is established that he was the Kingpin or the mastermind of the attack. He is currently holed up in 5 star prison in the United States(US). He is known to be working for the US intelligence agencies namely the Drug Enforcement Agency(DEA) and the CIA. These agencies placed him with the Pak ISI who seconded him to the Lashkar-e-Toiba. He visited India number of Times and moved around with the dawood gang members namely Chand Madar. Chand madar was killed by Mafia gangs after the Mumbai 2008 attacks..The inference should have been clear to the investigating authorities. The Mafia and their Patrons the US and Pak intelligence agencies are involved in many ways in the terror attacks. These are matters beyond the perview of State Police.*

*Question arises that why was kasab a low level operative hanged and why the master mind Headley is free. Why Headley has not been brought to India. Why is the US not cooperating with India on this terror attack when you are bending over to support the US on war on terror. Why Headley is not hanged? This is the central issue of the entire episode.*

*Coming to Pak and hafeez Sayyed. Why India is not taking any suo moto action like the US did to Osama Bin Laden and continues to do by drone attacks in the Pak western borders. Hafeez Sayyed is residing in Murdike a huge lashkar camp near Lahore. It is not far from the Indian border. You have promised the Indian people of taking strong action against Pakistan. Why you are succumbing to the US pressure. Many of my comrades have been killed on the Indian Borders since you have taken Oath but there is no retaliation.*

*In view of the above we request you to :-*

1. *Appoint a judicial commission as directed by Information Commissioner Sh. Ratnakar Gaikwad. The Pradhan committee appointed by the Maharashtra government had no jurisdiction on the Central government and organizations.*
2. *Investigate all aspects of the terror events and intelligence failure. Included loss of weapons, bullet proof jackets, helmets of Karkare, Kamte and Others.*
3. *Examine all electronic conversations and CCTV footages afresh to recreate the events.*
4. *Responsibility of the IB and the R&AW in the events. The accountability be fixed and guilty punished.*
5. *Ask the US for unconditional handing over of David Headley and Rana to India. Failing which relations with the US be reviewed.*
6. *Review the security infrastructure for Mumbai. It is gone more lax and senior police officers, politicians and corporate are patronized by the Mafia. A parallel government is ruling this country (Vohra Committee)*
7. *Submit an action taken report on the Vohra committee on the nexus of Mafia, politicians, corrupt officers) This committee was constituted of Head of Intelligence agencies.*
8. *Appoint an independent commission under the National Security Council to develop a short and long term plan for reforming the National Security Infrastructure.*
9. *The charge sheet on Col Purohit includes international ramifications and involvement of Israel in India. Review the same.*

*The events leading to and the operational preparedness thereafter are vague and more of rhetoric and Pak bashing. We need to reassess the role of the US and its continued patronage of Pakistan. The Congress government failed to address itself to the issue. Refused to investigate on vital aspects of national security. We expect you to come forward and expose the real story of 26 Nov 2008 attacks.*

*Thanking you*

*Sudhir Sawant*
